### CONTEMPORARY INDIGENOUS SCULPTURE

Object Gallery is collaborating with the Australian Museum to develop a major exhibition of sculptural works depicting a wide variety of animal forms by Indigenous artists from across the country.

Students and teachers will be able to visit Object Gallery to view part of this extraordinary collection of animal sculptures. Artists working with a variety of materials such as wire, fibre and wood have depicted a range of animals including camp dogs, echidnas, spiders, owls and stingrays.

**Taronga Zoo is also a partner in this show and the Zoomobile will be coming to Object Gallery with live animals from:**

- 14th-18th September
- 21st -25th September
- 26th -30th October

**The artmaking workshops and exhibition are free at Object. The Zoomobile will incur a small cost of \$3.30 per student. To see more of this wonderful exhibition visit the Australian Museum**

The Cultivate program was made possible through the generous support of the John T Reid Charitable Trusts and The Ian Potter Foundation.

An on-line education kit will be available at <http://object.com.au/archive/pages/education.htm>
